BOTH WAYS. There are strong contrarieties in hu man nature, which often puzzle the observer, and lead him to acquiesce in the of reasoning. What for instance, can be more absord than that unmeaning escessionists hereabout endeavor to extenuate the fiagrant crimes of treason and rebellion? Even those ardent opsalves under the leadership of Gerrit Smith never committed an overt act of treason. If they vented their spleen against the national government because of its guarantees to slavery, this was bat a harmless fulmination, participated in by few, and regarded with indiffernorthern people. Nowhere was such ultraism more violently denounced and opposed than in New England itself .--On this subject the Phila., North American very ably remarks, as follows;

The palliators of southern treason must not be permitted, through such shallow devices, to turn the current of national indignation in the wrong direcand wield it in open revolt against the Federal authority, appropriating the national statemats, ships and treasure, can nonading Pederal forts, and subjecting loyal men to torture, exile and death.

NEWSPAPER MORED.

The office of the St. Croix Herald in St Stephens, N. H., was again whited by a mob last night. The work of destruction this time is nearly complete. Most of the type is pied, the press injured and much of the material scattered outside of the builting and thrown into the river. The causes are doubtless the same as those which inare doubtless the some as those which in-duced the former outrage. The publica-tion of the paper will be unavoidably de-layed for several weeks. The Herald is a strong Union paper per-haps the only one in New Brunswick. Its

opposition to Secressionism has brought the wrath of the provincials down upon it.
